MARLIN ATHLETICS

PE & Sports

PE Elementary 1-3

Working with the SHAPE America curriculum, during the month of February, we worked on balance and muscular tension through games and exercises.

PE Elementary 4-6

Over the past month, students worked on their non-locomotor skills and fitness components like balance and muscular tension. During the next unit, we will be working on manipulative activities in order to learn/improve students’ underhand & overhand throwing pattern.

Bávaro-Punta Cana Tournament 2020

Throughout the month of February, our athletes competed against three other schools from the Bávaro area. We would like to recognize all the effort they put in each of those games. We would also like to give a big shout out to the boys basketball team who gave us a home victory against BBS in an exciting game!

Mr. Randall and his primary/middle school band made their first appearance during our home games, spicing up the sports atmosphere in the gym. We are looking forward to our next home game where the band will continue cheering on our Mighty Marlins!
